

LRES1016PF-SFP+

— PCIe x4 Single-port 10G SFP+ Ethernet Network Adapter (Intel 82599 Based)

Overview

LRES1016PF-SFP+ is a PCIe x4 single-port fiber optic 10G Ethernet network adapter developed by Linkreal CO.,LTD. based on Intel 82599 master solution. The adapter has the ability to manage the Ethernet MAC and PHY layers in addition to the traffic management of the passed packets. The controller can share tasks such as TCP/UDP/IP checksums, offloads, compute tasks and TCP segmentation for server hosts through hardware acceleration.

The LRES1016PF-SFP+ provides hardware enhancements such as smart queuing optimized for multi-core processors and on-chip support for load balancing, enabling higher levels of 10 Gigabit Ethernet scalability. Provides Intel Virtualization Technology (VT-c), including at the network level, to significantly improve overall system performance in virtual server environments. Intel VT-c technology includes hardware optimization features that significantly reduce I/O bottlenecks, improve throughput and reduce latency. Intel VT-c's component, Virtual Machine Device Queuing (VMDq), significantly improves performance and reduces CPU utilization by offloading data-sorting loads from the virtual machine monitor (VMM) to the network controller. Enhanced features include offloading inter-VM switching within the server, virtual machine direct connectivity (VMDc) to VMs.

The PCIe x4 interface design of the LRES1016PF-SFP+ provides several hardware-optimized features including I/O virtualization and support for unified networking to transform the data center with outstanding reliability, scalability and mobility.

The network adapter also supports iSCSI, FCoE, PXE and more to boot. This feature allows SAN and LAN traffic to share existing Ethernet infrastructure without the need for a dedicated iSCSI adapter. the LRES1016PF-SFP+ includes advanced features that greatly increase the speed of iSCSI traffic and support iSCSI remote boot.

Key Features

1. PCIe x4 single-port optical fiber 10G Ethernet network adapter;
2. Support TCP/UDP/IP verification, offload, calculation tasks and TCP segmentation, etc.;
3. PCIe 2.0(5.0GT/S) X4, compatible with x8, x16;
4. It support iSCSI, FCoE, PXE and other boot.

Specifications

Controller	Intel 82599
Cable medium	Fiber Optics
Cable Type	10GBase-SR、 10GBase-LR、 10GBase-Cu
Bracket Height	Low Profile & Full Height
Power (max)	4.80 W
System Support	Windows 7、 8/8.1、 10、 11
	Windows Server 2003 / R2
	Windows Server 2008 / R2
	Windows Server 2012 / R2
	Windows Server 2016 / R2
	Windows Server 2019 / R2
	Windows Server 2022 / R2
	Linux Stable Kernel version 2.6.x / 3.x / 4.x or later
	CentOS / RHEL 6.x / 7.x or later
	Ubuntu14.x/16.x or later
	FreeBSD 9 / 10 / 11 or later
	UOS V20 or later
VMware ESX/ESXi 5.x / 6.x or later	
Bus Interface	PCIe v2.0 (5.0GT/s) x4; compatible x8 x16
Data rate per port	10Gbps
Connector	1*10G SFP+
Power Supply	PCIe

Technical Features

Ethernet Power Management	Yes
Protocol Support	IEEE802.3ae 10 Gigabit Ethernet over fiber IEEE 802.3x Full Duplex and flow control

	IEEE 802.1AS IEEE 802.1Q VLAN IEEE 802.3AD IEEE 1588 IEEE 802.3az - Energy Efficient Ethernet (EEE)
PXE	Yes
iSCSI	Yes
FCoE	Yes
DPDK	Yes
WoL	No
VMDq	Yes
TOE (TCP/IP Offload Engine)	Yes
RSS	Yes
Jumbo Frames	Yes
PCI-SIG*SR-IOV	Yes
UEFI	Yes

Environment Features

Operating Temperature	0°C to 55°C (32°F to 131°F)
Storage Temperature	-40°C to 70°C (-40°F to 158°F)
Storage Humidity	Maximum: 90% non-condensing relative humidity at 35 °C
Certification	FCC, CE, RoHS

Physical Features

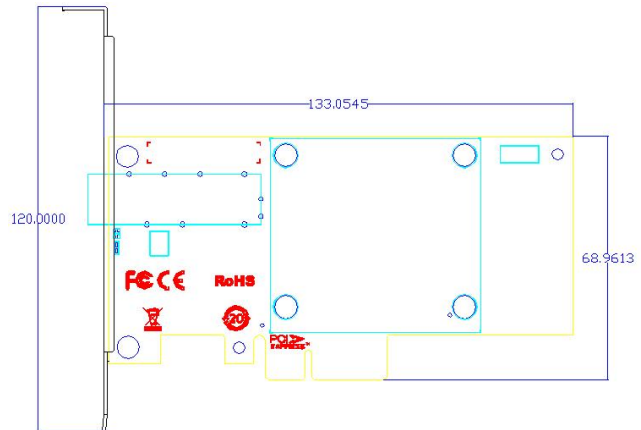

PCB Size(L x W x H)	68.9 x 131.54 x 1.6mm
Package Size(L x W x H)	222 x 147 x 28mm
Weight(g)	*

Order Information

P/N	Description
LRES1016PF-SFP+	PCIe x4 Single-port 10G SFP+ Ethernet Network Adapter (Intel 82599 Based)

PS: Above details are only for reference, if there is any change, no prior notice.

Product Structure

1. Heat sink
2. 1*10G SFP+
3. Golden fingers

PS: The depictions provided of our products are not to scale and are intended for illustrative purposes only.

Linkreal Co.,.LTD.

Linkreal Co.,Ltd is an efficient Ethernet adapter design company with independent research and development,using Intel, Net-swift, Tehuite, Broadcom, Realtek and other manufacturers Ethernet controller, developed by our company's independent R&D design team, manufactured by our company workshop, and then sell.

Declaration

Our products specifications come from modifying the chip manufacturer's specifications released. Product features, technical parameters, technology right, intellectual property rights and brand names etc.mentioned in specifications are only referenced. There is no infringement meaning. If there is any important and sensitive content related, please contact our company, we'll delete them, Thank you.
